## THE REVOLUTION #77 – SEPTEMBER 2014

As you know we are expecting in mid September. We are planning for Ashley to teach as much as possible. She will of course be gone for a short while before and after. However, Ashley is planning to be back and teaching before too long. We have several instructors who are all stepping up to do their best to help fill this space. Ashley and I have been training them all summer in preparation for this. We appreciate everyone's support and understanding and feel lucky to have such awesome students, friends and family!
